

Asia Oceania First

13TH ASIA-OCEANIA ORL-HNS CONGRESS

In conjunction with 5th Asian Paediatric
Otorhinolaryngology Congress & 2015 Annual
Meeting of Taiwan Otolaryngological Society

March 19~22, 2015
Taipei, Taiwan

Program

Organizers:

Asian Paediatric ORL Group

Welcome Message

Dear Colleagues:

On behalf of the organizing committee, I heartily welcome you to the 13th Asia-Oceania ORL-HNS Congress on March 19-22, 2015 in Taiwan.

The meeting will be hosted by Asia-Oceania Association of Otolaryngology-Head and Neck Surgery Societies, Asian Paediatric ORL Group (APOG), Taiwan Otolaryngological Society, and jointly sponsored by American Academy of Otolaryngology- Head and Neck Surgery.

Asia-Oceania Association of Otolaryngology-Head and Neck Surgery Societies has been recognized by IFOS as the official society to represent Asia-Oceania. Asia-Oceania ORL-HNS Congress is the major ENT scientific event in Asia-Oceania region. The meeting was held in different city/country in every four years since the initiation and establishment of the society in Korea, 1965 and the first scientific meeting in Manila, Philippine in 1967. It has been more than 40 years since Taiwan host this meeting in November, 1971. Truly, we are so eager to invite you to visit Taiwan and will be even more proud to show you what we have achieved in this beautiful island of Taiwan along the years.

The main theme of the 13th Asia-Oceania ORL-HNS Congress will be "Asia Oceania First". The first day (March 19, 2015) of this meeting will be numerous instruction courses and workshops to cover some of the cutting edge knowledge and techniques in Otolaryngology-Head and Neck Surgery. The other two and half days (March 20 – 22, 2015) will be formal scientific meeting including keynote lectures, great debate, round table, panel discussion and oral or poster presentations. The scientific program will be covering nearly every aspect in Otolaryngology, Head & Neck Surgery including head & neck, skull base, otology, audiology, rhinology, facial plastics, laryngology, sleep medicine, speech & swallow medicine, pediatrics ENT, general ENT as well as basic research, et al.

In addition, we sincerely offer you some unique social program and post-congress tour. We strongly encourage you to take advantage of this opportunity to explore the numerous attractions and enjoy the all-hearted welcome from people in Taiwan. We believe that you will not only have updated academic exchange but also a merry time of friendship to leave you unforgettable memories.

Enjoy your stay in Taiwan!

Sheng-Po Hao

Sheng-Po Hao MD, FACS, FICS

President

13th Asia-Oceania ORL-HNS Congress

President

Asian Society of Head & Neck Oncology

Asia-Oceania Association of Otolaryngology Societies President

On behalf of the Asia-Oceania Council, and the team in Taiwan, I am pleased to invite you to this prestigious scientific meeting - the 13th Asia Oceania ORL-NHS Congress – to be held in Taipei, March 2015. Professor Sheng-Po and his Committee have worked very hard to ensure a high-quality and highly relevant program

The Asia-Oceania Association of ORL-HNS Societies was founded in 1965 in Korea. The first meeting was in Manila in 1967. From the beginning, the Asia-Oceania ORL-HNS Congress has a reputation of being a friendly and fulfilling meeting, and while I am sure this congress will stand out in the same way, the signs are that it will be the best yet!! We all recognise that the hospitality of the people of Taiwan is legendary, so we can be sure that there will be not only a first-class academic content, but also a wonderful social and collegial experience.

I am especially drawn to the theme for this meeting: "Asia-Oceania First". We are all aware of the emerging prominence and importance of Asia-Oceania in world affairs, and increasingly this is being manifest in Medicine in general and Otolaryngology in particular. This meeting is a prime opportunity for one to be involved in this "new" frontier for clinical and academic Otolaryngology.

I want to sincerely thank the Taiwan Otolaryngology Society and the Asian Paediatric Otolaryngology Group for endorsing and supporting this meeting. Their involvement ensures the success of the meeting, and should provide an added stimulus for people to attend, both from Asia and around the world. I would encourage you all to not only consider registering for this special meeting but to also submit an abstract of your work so that we all may have that added opportunity to learn.

My thanks also go out to everyone that has helped to bring us to this point. The strong positive collegial vibes emanating from Taiwan signal to me of a happy and hard-working and effective group that believe in this Congress. This is a recipe for great success. Please make the most of this chance to register for this meeting, partake in the discussions and most of all, enjoy your time in Taipei !

Hsieh-Yu Li (Taiwan)

Frank Leigh Lu (Taiwan)

Summary of the course:

This is a two-day lectures and workshop, which covers common and important aspects of paediatric airway disease that are relevant to surgical as well as medical disciplines such as otolaryngology, pediatric medicine, emergency medicine, intensive care medicine and anesthesia.

For the surgical disciplines like otolaryngology and pediatric surgery, a special emphasis on various aspects of pediatric bronchoscopic procedures and techniques will be demonstrated.

This will be further augmented with hands-on bronchoscopic techniques on dogs and live surgery demonstration on paediatric patients.

Date: 18 March 2015

Minimally Invasive Surgery Training Center, National Taiwan University Hospital, Taipei, Taiwan

Time (Hour) Topics

0800 – 0830 Registration

0830 – 0840 Opening Address:

*Prof. Tzu-Yu Hsiao, President, Taiwan ENT society Chairman of Department of Otolaryngology,
National Taiwan University Hospital*

Prof. Mei-Hwan Wu, Superintendent, National Taiwan University Children's Hospital

0840 – 0900 Evaluation of stridor in infants and children – Martin Bailey

0900 – 0930 Laryngomalacia: Chairman- Martin Bailey

Clinical features- *Henry Tan* (8 min)

Management- *Wei-Chung Hsu* (8 min)

Cases- Martin Bailey

0930 – 1000 Subglottic stenosis: Chairman- Julie Wei

Clinical features- *Antonio H Chua* (8 min)

Management- *Kuo-Sheng Lee* (8 min)

Cases- *Julie Wei*

1000 – 1030 Laryngeal papillomatosis: Chairman- Goh Bee See

Clinical features – *Martin Bailey* (8 min)

Management – *Alan Cheng* (8 min)

Cases – *Goh Bee See*

1030 – 1045 Tea

1045 – 1115 Vocal palsy: Chairman- *Alan Cheng*

Clinical features – *Paul Bumbak* (8 min)

Management – *Siti Sabzah Hashim* (8 min)

Cases – *Alan Cheng*

1115 – 1125 Flexible Bronchoscopy: *Antonio H Chua*

1125 – 1155 Rigid Endoscopy demonstration on instruments: *Martin Bailey*

1155 – 1200 Briefing of Workshop on dogs: *Wei-Chung Hsu*

1200 – 1300 Lunch

1300 – 1700 Hands on session on dogs:

Instructors: *Martin Bailey, Alan Cheng, Julie Wei, Henry Tan, Goh Bee See, Siti, Sabzah Hashim,
Kuo-Sheng Lee, Antonio Chua, Paul Bumbak, Nguyen Thi, Ngoc Dung, Nguyen Thi
Thanh Thuy, Fauziah Fardizza, Elvie Zulka, Wei-Chung Hsu*

Diagnostic Laryngoscopy, Telescopic Bronchoscopy

Diagnostic Laryngoscopy, Rigid Bronchoscopy

Therapeutic Laryngoscopy and rigid Bronchoscopy

Microscopic Application (*Martin Bailey, Julie Wei*)

Flexible Bronchoscopy (*Antonio Chua*)

Laser Application (*Kuo-Sheng Lee*)

Pediatric Tracheotomy (*Kuo-Sheng Lee*)

Laryngotracheal Reconstruction (*Alan Cheng*)

Sliding Tracheoplasty (*Alan Cheng*)
