QUICK ASSESSMENT PROCEDURES FOR TWO STORIES BUILDING BASED ON NUMERICAL SIMULATION RESULTS

Authors: Febrin Anas Ismail¹, *Abdul Hakam¹, M Maisaquddus Hape², M Sofian Asmirza³

The authors have summarized their replies to the Reviewers' comments in this response letter in a two column format. A revised manuscript is submitted addressing all the comments to the Journal of GEOMATE for possible publication.

No	Reviewer's Comments	Authors Response
1	General comments: This paper is written very carefully and it is a well written paper. The reviewer recommend this paper for acceptance with following change.	Thanks for the comment of this great Reviewer.
2	Mandatory changes:	
	1) Space should be given after the heading of Table 1, 2, 3.Unnecessary blank places should be avoided. Follow the proper conference format.	Has been done.
	2) Citation of figure 1 should be added.	Has been added.
	3) Figure 3 is not clear(Y axis and its values).	It has been made clearer, it is also explained in the paragraph.
	4) Spelling mistakes: Institute (Author affiliation)	Has been corrected.
	5) Grammar Mistake: earthquakes have been(Introduction 1st para-instead of "has been"),three earthquakes, those earthquakes (Introduction 2nd parainstead of "earthquake"),All of the big earthquakes(introduction 3rd para-instead of-instead of "big"), These works indicate the importance of (Introduction 5th para-instead of "this work"),building are designed as(Numerical simulations last para-instead of "design as"),this design then gives(Numerical simulations last para-instead of "give),two storey structure(Analysis and results first para-instead of " structures"),Fig 2 has a height(Analysis and results first	All of these grammar mistakes and unnecessary word-space have been corrected. Thank you very much.

	<p>para-instead of “has height”),comma after meanwhile(Analysis and results 3rd para),value off displacement an internal forces(Analysis and results 3rd para-(possibly confused word ‘an”), will be reported (Analysis and results last para-instead of “report”),However, these preliminary (Analysis and results last para-instead of “However this preliminary”),The numerical result show that(conclusion 3rd para–instead of “shows”),give different responses to the (conclusion 3rd para –instead of “of”). So many extra spaces are given in between words, so please do check that as well</p>
