I would like to know the paper publish in AACL Bioflux, 2020, Volume 13, Issue 2. I would like to know if this paper indexed by Scopus, how about the level of this paper Q3 or Q4 and how about the SJR ?

Thank you for your help.

SCImago Team

Dear Andrew,

Thank you for contacting us. SCImago calculate the indicators for journals, not for papers. We suggest you to consult the Scopus database directly to see the information related to a sepcific paper.

Best Regards, SCImago Team

Dear Dr. Indra Junaidi Zakaria,

We received your manuscript. We will need some time for a preliminary evaluation.

Since I will be your editor, keep in touch with me only from now. Dr. Petrescu-Mag will not be aware about the paper's progress.

Thank you very much!

With best regards,

Dear Dr. Indra Junaidi Zakaria,

The paper has passed the preliminary evaluation and will be sent to reviewers for the complete analysis.

From this point on, there are two options:

- fast track review, completed in up to one week, processing fee of 300 USD + bank taxes;
- regular review, completed in up to a month, processing fee of 250 USD + bank taxes.

So, kindly let me know which is your option. Then proceed to pay the processing fee (250 or 300 USD + bank taxes). For this use only one of the two variants below. After the payment send me a scan copy of the bank document.

Looking forward to have your reply.

Thank you very much!

Cordially yours,
Claudiu Gavriloaie

1st variant of payment:

Beneficiary: Bioflux SRL

City: Cluj-Napoca,

Country: Romania, European Union;

SWIFT CODE of the bank: BTRLRO22

Account no. 213USDCRT00L2861401

IBAN:

USD: RO68BTRL01302202L28614XX (Cluj-Napoca)

EURO: RO19BTRL01304202L28614XX (Cluj-Napoca)

Bank:

BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 220 / 260 usd instead of 250 / 300 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge.

2nd variant of payment:

via Paypal. If you can process such a payment we can start the online form. For this variant, please contact dr. Petrescu-Mag (zoobiomag2004@yahoo.com).

Dear Dr. Indra J. Zakaria,

The paper is definitely very interesting and useful.

However, there are so many inconsistencies and misspellings through the whole text. So, pay attention to every single comment. For addressing them, work only in the attached document and highlight with a bright color all the changes **you** will do in text.

Thank you very much!

the status of the paper "Succession of reef fish community" - still not the final form

From: gavriloaie ionel claudiu (ionelclaudiu@yahoo.com)

Respected authors,

I have sent the second revision more than a month ago to this e-mail address (indrajz@yahoo.com), then two weeks ago again, having no reply. I suppose the author did not receive the message or it entered the Spam/Bulk folder. It happens a lot to us to receive important messages in Spam folder instead of Inbox folder.

So, I am writing to all of you, hoping for a quick response.

There were many wrong spellings of some scientific names. There were also some changes you did not highlight in any way. So, we checked the whole paper again, line by line. We hope we spotted all the changes you did.

Finally, some of our comments were ignored. So, please address all the remained comments.

Mark red the changes you will do.

Looking forward to have a reply.

Thank you very much!

Sincerely yours,
Claudiu Gavriloiu

Dear authors,

Here you have the final form of your paper. Kindly check it carefully and then let me know if you agree with the publication in this form.

Also check the title online: <http://www.bioflux.com.ro/home/volume-13-4-2020/>.

The paper had many editing problems. And to write the scientific names in a wrong way is totally unacceptable for a paper submitted to an academic journal.

However, beyond these technical issues, the paper is of really high quality. It is obvious you worked hard both on the field and then to write down the paper. So, we are very glad to publish such a fine article.

Looking forward to have your reply.

Thank you very much!
