## Migration of OAMJMS to Dedicated Server

2020-08-29

Dear Users,

Because of the overload with the data, Open Access Macedonian Journal of Medical Sciences was migrated from the Shared into Dedicated Server.

Migration of the website was very time consuming and lasted 10 days with total cancelation of all activities. We ask our users to excuse us for the inconveniences.

We hope the quality of the website will be increased and many problems will be solved with the migration. But, if you have any request, please, do not hesitate to contact me and suggest improvement of the website.

Comments to the Author

Good start of the article - introduction, materials and results.  
I suggest to rewrite the discussion part:  
The beginning of the discussion contains parts that should be placed in the results part, or in the introduction part.  
I suggest to make separate part as Conclusion  
Limitation of the study should also be mentioned.
