Inderscience Publishers are currently working towards a new online submission system and we would be grateful if you would sign the attached Copyright Agreement Form (even if you have sent one previously), and return it via email with your proof and amendment sheet. Please find attached a blank Form for your convenience.

If there is more than one author for a paper each author must sign a Copyright Agreement Form of their own. It is not acceptable for one author to sign on behalf of all authors.

The form must be forwarded to all co-authors by the corresponding author to return with the amendments required to the typesetter.

A paper will not be publication without a Copyright Agreement Form or Forms signed by all authors.

With regard to keywords, please check ALL the essential words/terms from the title and abstract are included and in an optimum format, which is ideally of 1-3 words; if more than 1 word, the words should be a phrase, not a description. Therefore, please check papers for:

- do the words/phrases in the title appear in the keywords - NO - then please add
- are there enough keywords in the field? (i.e. if there is a long abstract and only 2-3 keywords, then probably not - please expand)
- are there long phrases with 'of' and 'and' in them? (YES - then please re-format into key phrases).

Where applicable, the title of the journal should also appear in the keywords (e.g. for International Journal of Nanotechnology, 'nanotechnology' should appear in the keywords; for International Journal of Environment and Pollution, 'environmental pollution' would be the phrase to use. This is obviously more applicable to some journals rather than others.

Detailed requirements for papers can be found on the Inderscience website www.inderscience.com under Notes for Authors.

To ensure the publication schedule is maintained and in the event of you not replying within this timescale, contact will be made with the Editor of the issue and it is possible that the paper will be held back from publication.

If any figures appear in colour, please note that they will only appear in colour in the online version but in the printed version they will be in black and white.

If the quality of the colour figure supplied is not suitable to be produced in colour, it will only be shown in black and white in the online version. However, if colour is essential to the figure please send a better quality colour image with your proof reply

Where there is more than one author, please indicate who is the corresponding author if not already shown and kindly respond to any queries in the paper.

Many thanks
Kind regards
Jyothi
