Results and discussion could be written together or separately, and presented in sequence, from the main result to the support. **Formula and equation** should be noted that all easily confused characters and symbols, upper and lower case letters, as well as block and italicized lettering should be noticed to the proceedings editor. In this sample, the following equations are presented as illustration:

$$\int_0^{r_2} F(r, \varphi) dr d\varphi = [\sigma r_2 / (2\mu_0)] \tag{1}$$

where $t = 0, \dots, T$, and b is a number greater than 1.

Tables, figure and picture are placed directly into the text appropriately. The tables should also be numbered like Table 1, 2, 3...etc and same as the figure. Figure captions should be centered below the figure; table captions should be centered above. Figure should be supplied in either vector art formats (Illustrator, EPS, WMF, FreeHand, CorelDraw, PowerPoint, Excel, etc.) or bitmap formats (Photoshop, TIFF, GIF, JPEG, etc.). Bitmap images should be of 300 dpi resolution at least. Pictures should be supplied electronic image file, original files of 300dpi or more and should be indicated the file name and an ordinal number of picture. The table is made in open form and the title of table is placed on it (1 space).

Table 1. The sample for title of table and the form of open table

Item 1	Number 4	Number 7
Item 2	Number 5	Number 8
Item 3	Number 6	Number 9
